FEATURES THAT YOU'VE BEEN LOOKING FOR IN AN MFP.

HIGH PERFORMANCE INCREASES SPEED AND ACCURACY IN OFFICE PRINTING APPLICATIONS

The bizhub 368e/308e performs exceptionally in the busiest work environments. It features both stable high output and improved DADF scanning — with a 6,650 sheet paper loading capacity and 160 opm dual scan speed. This high copy and scan functionality improves users' work efficiency. Plus, we've not only improved print speed but also various image enhancement features to ensure accuracy and stunning output.

THE KONICA MINOLTA MARKETPLACE

The Konica Minolta MarketPlace is your source for all the apps you need to keep you informed, enhance the MFP experience and accelerate your business. Whether through your internet connected bizhub or your desktop computer, access to the Konica Minolta MarketPlace is smart, easy and convenient.

KONICA MINOLTA SECURITY

Konica Minolta's bizhub SECURE, a professional security service, provides powerful lockdown protection that guards your bizhub from unauthorized operation. Our IEEE 802.1X SSL and IPsec protocol authentication methods allow easy integration into protected networks, plus secure network communication. Virtually all bizhub systems conform to the ISO 15408 EAL3 standard, meeting the highest international security standards.
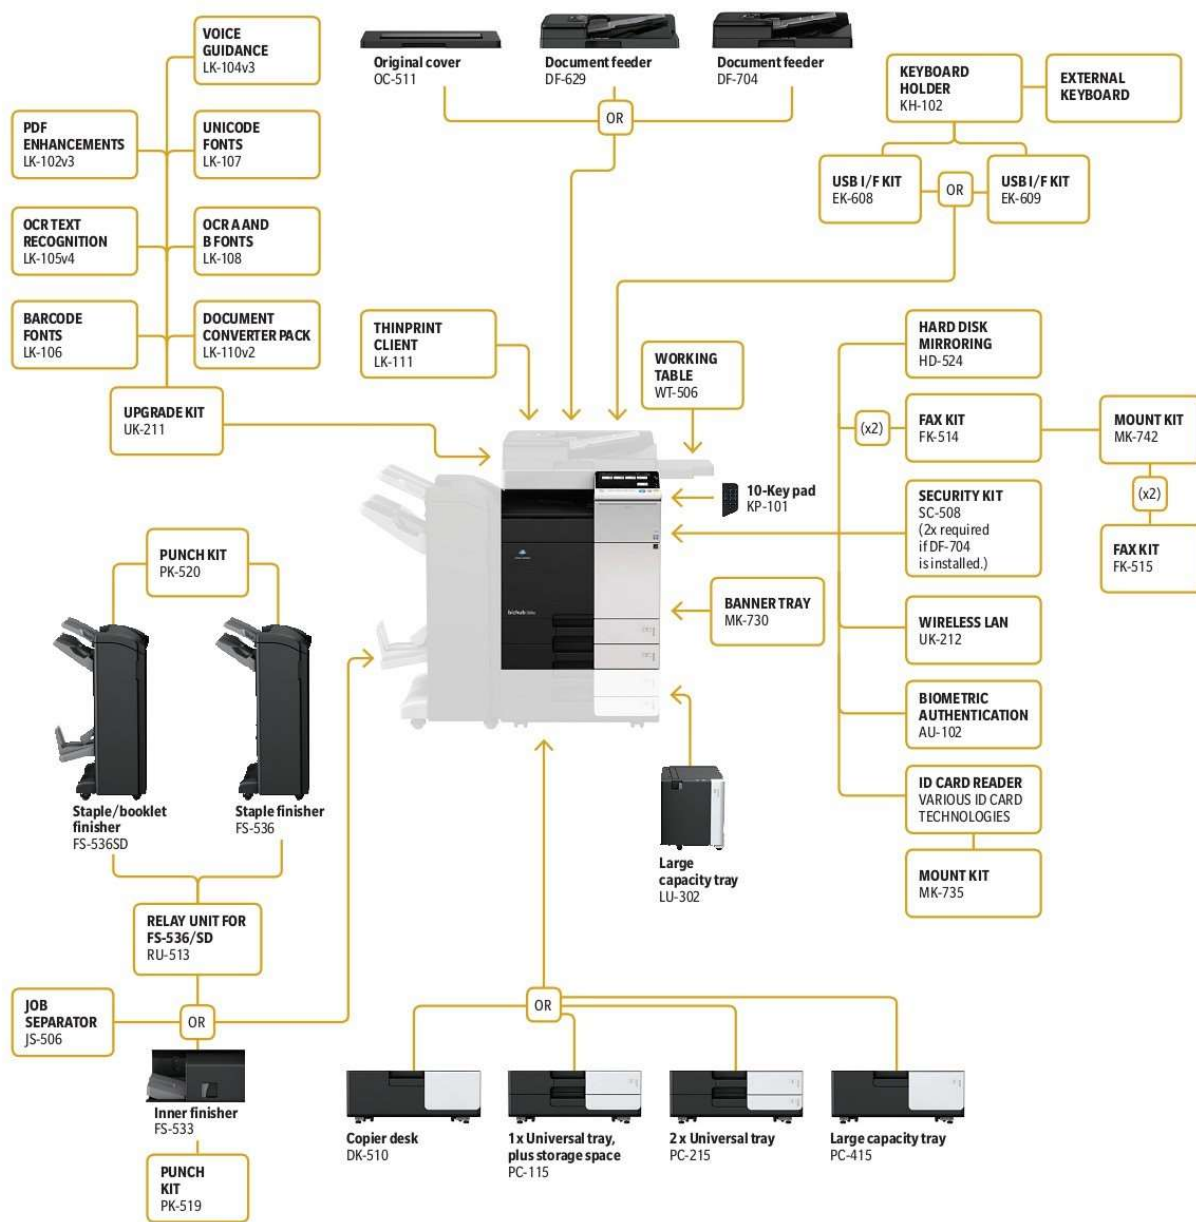

COLLABORATION THROUGH ENHANCED SOLUTIONS THAT SUPPORT VARIOUS WORK STYLES

The bizhub 368e/308e also provides strong connectivity with mobile devices, cloud service and third-party business applications. With standard web browser and IWS functions, users' business requirements will be fully covered with this powerful MFP.

A REVOLUTION
DOESN'T HAPPEN ALONE.

Today's businesses require innovation now more than ever. We've listened to our users' needs and updated the bizhub 368e/308e to help them do their jobs quicker and more efficiently.

AUTOMATIC PAPER SIZE MEASUREMENT FOR NON-STANDARD PAPERS

The bizhub 368e/308e takes the guess work out of non-standard paper sizes. Simply load originals to the DADF or glass platen, then press the start button. The MFP automatically measures the size of paper and registers the measurement into the memory.

IMPROVED SCANNING DOCUMENTS TO A COMPACT PDF

Now you can scan files to PDF format and not worry about running out of storage space. Image noise has been reduced and image quality has been improved while also producing smaller compact PDF file sizes.

CREATE A VARIETY OF PRINTED MATERIALS IN-HOUSE

The bizhub 368e/308e supports a wide range of high-level finishers for various types of outputs. Multiple finishing options. One single unit. Quickly mass-produce various types of outputs for added flexibility and cost reductions. The FS-536/536SD floor finisher with 50-sheet stapling has binding, folding, hole punching and cover functions. A complete finishing solution.

For space saving finishing functionality you can add the FS-533 inner finisher, an economical and versatile finishing solution to add stapling. If hole punching is a requirement for your business, just add the extra kit and we have all your needs covered in the same footprint.

POWERFUL FINISHING OPTIONS FOR ALL KINDS OF MEDIA.

The bizhub 368e/308e has a robust variety of finishing capabilities to meet your needs.

| Corner stapling	Two-point stapling	Two-hole punching	Three-hole punching	Duplex	Combined mixplex/mixmedia
Half-fold	Sheet insertion, report	Tri-fold	Booklet	Offset sorting	Banner printing

TECHNOLOGY THAT HELPS YOUR TEAM WORK SMARTER.

MOBILE PRINTING

The bizhub 368e/308e supports various mobile print technologies. It's flexible to suit your users' environment, such as Classic Google Print, which enables output outside the office; or Mopria, which is compatible with various manufacturers' printers.

The operation panel also includes a mobile touch area compatible with devices that support NFC (Near Field Communication). With Konica Minolta Mobile Print you can:

- Pair immediately with the MFP
- Log into the unit if user authentication is set
- Print/scan

FLEXIBLE WIRELESS CONNECTIVITY

Wireless extension functions, AP mode and WiFi Direct are supported, enabling an optimum setup to match any office network environment. Flexible support for BYOD and new connection environments can be built without making additional investments.

SUPPORTS HDD MIRRORING

HDD Mirroring is the real-time synchronization of main HDD and optional backup HDD. Risk of losing data is reduced significantly, even if the main HDD fails, as it automatically switches to the optional HDD.

WIDGETS

Users can paste text boxes, icons or GIF animation clips as widgets on the control panel. Advertisements and operating precautions can also be effectively displayed.

EASY SET ECO FUNCTIONS ON THE MAIN MENU

Toner/paper saving, power saving or any Eco function shortcuts can be registered on the main menu. The cumulative power consumption is displayed as a list or graph on a monthly or hourly basis.

CONTROL POWER CONSUMPTION WITH ECO SETTING

One touch settings are available to reduce the brightness of the touch panel or to turn the animation display off and thereby control power consumption.

RECYCLED MATERIALS

Konica Minolta's own developed processing technology made it possible to maximize the use of PC/PET material for its products' outer parts. The bizhub 368e/308e uses recyclable materials for more than 25% of the weight ratio of the total resin volume, a first in the A3 MFP industry.

At 9 inches, our enhanced multi-touch panel puts features and capabilities at your fingertips, transforming the panel into a tool you can customize specifically for your business needs.

CUSTOMIZE THE MAIN MENU

Up to 23 shortcut keys can be set in the main menu for quick and easy access to frequently used functions.

SLIDE MENU

The slide menu containing pre-registered frequently used features can be accessed from the right side of various screens.

KONICA MINOLTA MARKETPLACE

The Konica Minolta MarketPlace enhances your MFP's capabilities with a number of workflow and communication apps designed for your business needs. Similar to those used on mobile devices, the apps can be accessed right from your MFP's touchscreen control panel. Find apps to support scanning and printing; or apps that can save time, speed work and make administrative tasks easier. Visit konicaminoltamarketplace.com for more information.

WEB BROWSER AND IWS FUNCTIONS

Allows users to access the web directly from the bizhub control panel. You can access HTTP pages, preview PDF files and search and view manuals written in HTML. This function is standard.

COMMITTED TO OUR WORLD.

Protecting the planet has always been a top priority at Konica Minolta. Our broad array of environmental initiatives will help you realize your own sustainability goals:

CLEAN PLANET
Our program provides cost-free recycling for all our consumables, including toner cartridge and bottles, imaging units, developer and drums with prepaid shipping labels and cost-free packaging. We can even arrange pick-up from high-volume users.

SUSTAINABILITY
Our exclusive Simitri HD toner formulation uses plant-based biomass material to reduce environmental impact. The latest bizhub models are EPEAT-Gold Certified and achieve among the lower power consumption rate of MFPs in their class. Energy saving modes reduce power consumption while maintaining fast first-copy output — and a unique Eco-indicator helps you monitor paper, toner and energy usage.

ECOVISION 2050
We're committed to a mid-century goal of reducing CO_2 emissions by 88% over 2005 levels, minimizing greenhouse gases that may contribute to global warming. We pursue that goal every day — minimizing energy consumption, cutting pollution and using recycled materials in construction.

[1] Maximum monthly duty cycle describes the maximum number of pages a device can output on a monthly basis. This specification is a guideline intended to offer a comparison of durability as it relates to the entire Konica Minolta MFP and printer product line so that the appropriate device can be placed in order to meet customer needs.

[2] Supports x64 only.

[3] Warm-up time may vary depending on the operating environment and usage.

[4] Certification pending.
